INDEPENDENT AUDITOR'S REPORT

To the Board of Education of
Genesee Intermediate School District

We have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Genesee Intermediate School District, as of and for the year ended June 30, 2008, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Genesee Intermediate School District's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and the significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Genesee Intermediate School District as of June 30, 2008, and respective changes in financial position and cash flows, (where applicable), thereof and the respective budgetary comparison for the General Fund, Special Education Fund and Career Technical Education Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report under separate cover dated November 13, 2008 on our consideration of the Genesee Intermediate School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and important for assessing the results of our audit.

The management's discussion and analysis and information on pages II - XI, is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Genesee Intermediate School District's basic financial statements. The additional information on pages 26 - 42 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The additional information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

The Management Discussion and Analysis, a requirement of GASB 34, is intended to be the Genesee Intermediate School District's administration's discussion and analysis of the financial results for the fiscal year ended June 30, 2008.

Generally accepted accounting principles (GAAP) according to GASB 34 require the reporting of two types of financial statements: Fund Financial Statements and District Wide Financial Statements.

Fund Financial Statements:

The School District's fund financial statements provide detailed information about the most significant funds – not the School District as a whole. Some funds are required to be established by State law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Special Education and Vocational Funds are examples) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects). The governmental funds of the School District use the following accounting approach:

Governmental funds – All of the School District's services are reported in governmental funds. Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net assets and the statement of activities) and governmental funds in a reconciliation.

Proprietary funds use the accrual basis of accounting, the same as on the government-wide statements, therefore the statements will essentially match the business-type activities portion of the government-wide statements.

In the fund financial statements, purchased capital assets are reported as expenditures in the year of acquisition. No asset is reported. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long term obligations are recorded as expenditures. Future year's debt obligations are not recorded.

District Wide Financial Statements:

The District wide financial statements are full accrual basis statements. They report all of the District's assets and liabilities, both short and long term, regardless if they are "currently available" or not. For example, assets that are restricted for use in the Debt Funds solely for the payment of long term principal or interest are grouped with unrestricted assets of the General Fund. Capital assets and obligations of the District are reported in the Statement of Net Assets of the District wide financial statements.

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net assets and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets and liabilities, using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

FOR THE FISCAL YEAR ENDED JUNE 30, 2008

District Wide Financial Statements: (Continued)

These two statements report the Genesee Intermediate School District net assets – the difference between assets and liabilities, as reported in the statement of net assets – as one way to measure the School District’s financial health or financial position. Over time, increases or decreases in the School District’s net assets – as reported in the statement of activities – are indicators of whether its financial health is improving or deteriorating. The relationship between revenues and expenses is the School District’s operating results. However, the School District’s goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net assets and the statement of activities report the governmental activities for the School District, which encompasses all of the School District’s services, including instruction, support services. Property taxes, unrestricted State aid, and State and federal grants finance most of these activities.

The School District as Trustee – Reporting the School District’s Fiduciary Responsibilities

The School District is the trustee, or fiduciary, for its student activity funds. All of the School District’s fiduciary activities are reported in a separate statement of fiduciary net assets. We exclude these activities from the School District’s other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

SUMMARY OF NET ASSETS:

The following summarizes the net assets at the fiscal years ended June 30, 2008 and 2007:

FINANCIAL ANALYSIS

Analysis of Financial Position:

During the year ended June 30, 2008, the District's Total Net Assets increased by \$332,520 to a total of \$57,638,795. The largest portion of the net assets is the District's investment in capital assets. Net assets (invested in capital assets, net of related debt) increased by \$1,658,275 during the year due to purchases of new capital assets and principal payments on related debt exceeding depreciation. The districts Unrestricted Net Assets decreased by \$166,797 during the year and the restricted portion of the net assets decreased by \$1,158,958. The restricted Net Assets consist of the restricted debt retirement funds that may only be used to pay bonded debt and restricted capital projects funds that may only be used to fund capital projects. The unrestricted net assets may be used to fund the educational services provided to students.

Analysis of Results of Operations

The district's overall revenues exceeded its expenses for the year by \$332,520. The total revenues increased by \$4,600,801. The major changes were increases in property taxes and state aid. Expenditures increased by \$6,346,631. The major changes were a result of increases in transfers to include other districts to support instructional grant activity and transfers to other funds for building renovation projects.

FINANCIAL ANALYSIS OF GOVERNMENT'S FUNDS – GOVERNMENTAL FUNDS

Analysis of Financial Position

The focus of the District's governmental funds is to provide information on near term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the district's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. An analysis of changes for the governmental funds is as follows:

General Education Fund

The district's general fund is the chief operating fund of the district. Fund balance for the general fund increased by \$1,280,290 during the year coming primarily from an increase in cash. Revenues for the year increased by \$1,242,909 primarily a result of increases in federal grants. Expenditures and other financing uses increased by \$1,624,327 primarily a net result of increased salary costs, employer liability costs, the implementation of new grant awards and transfers to the Capital Project Fund. The major sources of general fund revenues are state aid and taxes. An analysis of the major revenue sources is as follows:

1. State of Michigan Aid (Section 81)

The State of Michigan aid provided under Section 81 of the State Aid Act provides the majority of state aid to the District's General Fund. Funding to the District under Section 81 is provided to comply with the requirements of the State Aid Act and to provide technical assistance to local districts as authorized by the intermediate school board. Funding under Section 81 was \$4,310,120 for the fiscal year and increase of \$42,675 from the prior year.

2. Property Taxes Levied For General Operations (General Fund Homestead and Non-Homestead Taxes)

The District levies 0.1635 mills of property taxes for operations (General Fund) on Homestead and Non-Homestead Properties. Under Michigan law, the taxable levy is based on the taxable valuation of properties. Annually, the taxable valuation increase in property values is capped at the rate of the prior year's CPI increase or 5 percent, whichever is less. At the time of sale, a property's taxable valuation is readjusted to the State Equalized Value, which is, theoretically, 50 percent of the market value. The District's property tax revenue for the 2007-2008 fiscal year was \$2,023,420 which is an increase of \$109,344 from the prior year.

Special Education Fund

Unreserved fund balance for the special education fund decreased by \$1,866,092 during the year with the decrease primarily a result of a reduction in cash. Revenues for the year increased by \$3,571,486 primarily from increases in property taxes, state aid and federal grants. Expenditures and other financing uses increased by \$3,417,512, primarily due to increased salary costs, employer liability costs, transfers to local districts and transfers to the Special Education Capital Project Fund. The major sources of special education revenues are Federal grants, state aid and taxes. An analysis of the major revenue sources is as follows:

1. State of Michigan Aid (Section 51)

The State of Michigan aid provided under Section 51 of the State Aid Act provides the majority of state aid to the District's Special Education Fund. Funding to the District under Section 51 is provided to reimburse the District for unreimbursed costs of special education programs, services and special education personnel. Funding under Section 51 was \$14,304,632 for the fiscal year an increase of \$1,159,455 from the previous year.

2. Property Taxes Levied For Special Education

The District levies 2.4078 mills of property taxes for operations (Special Education Fund) on Homestead and Non-Homestead Properties. Under Michigan law, the taxable levy is based on the taxable valuation of properties. Annually, the taxable valuation increase in property values is capped at the rate of the prior year's CPI increase or 5 percent, whichever is less. At the time of sale, a property's taxable valuation is readjusted to the State Equalized Value, which is, theoretically, 50 percent of the market value. The District's property tax revenue for the 2007-2008 fiscal year was \$29,798,103 an increase of \$1,610,528 from the prior year.

Career Technical Education Fund

Unreserved fund balance for the career technical education fund decreased by \$14,018 during the year with the decrease primarily a result of a reduction in cash. Revenues for the year increased by \$494,742 primarily a result of increases in property taxes. Expenditures and other financing uses increased by \$306,320, primarily due to the net result of an increase in support of the GASC transportation consortium, and increased financial support and transfers to local districts. The major source of career technical education revenues is taxes. An analysis of the major revenue sources is as follows:

1. State of Michigan Aid (Sections 61 and 62)

The State of Michigan aid provided under Sections 61 and 62 of the State Aid Act provides the majority of state aid to the District's Vocational Education Fund. Funding to the District under Sections 61 and 62 is provided to reimburse, on an added cost basis, the District for unreimbursed costs of its vocational-technical education center and vocational-technical programs and services. Funding under Sections 61 and 62 was \$2,288,448 for the fiscal year an increase of \$106,969 from the previous year.

2. Property Taxes Levied For Vocational Education

The District levies 0.9628 mills of property taxes for operations (Vocational Education Fund) on Homestead and Non-Homestead Properties. Under Michigan law, the taxable levy is based on the taxable valuation of properties. Annually, the taxable valuation increase in property values is capped at the rate of the prior year's CPI increase or 5 percent, whichever is less. At the time of sale, a property's taxable valuation is readjusted to the State Equalized Value, which is, theoretically, 50 percent of the market value. The District's non-homestead property tax revenue for the 2007-2008 fiscal year was \$11,915,281 which is an increase of \$644,141 from the prior year.

ANALYSIS OF BUDGETS:

The Uniform Budget Act of the State of Michigan requires that the local Board of Education approve the original budget for the upcoming fiscal year prior to July 1, the start of the fiscal year.

As a matter of practice, Genesee Intermediate School District amends its budget during the school year. The June, 2008 budget amendment was the final budget for the fiscal year. Significant budget variations were as follows:

Original Budget vs. Final Budget

General Fund

Revenues: The general fund proposed budget estimated revenues at \$18 million dollars. The estimated revenue was adjusted to \$22.2 million dollars. The significant adjustments were a result of new grant awards and deferred grant awards utilized during the year.

Expenditures: The general fund adopted expenditures were budgeted at \$19.7 million dollars. The final amendment for general fund was \$21.8 million dollars. The significant adjustments were a result of grant awards in support of Health, Safety and Nutrition department, the opening of the Genesee Early College, additional funding for Regional Assistance to High Priority Schools and adjustments for deferred grant activity.

ANALYSIS OF BUDGETS: (Continued)

Special Education Fund

Revenues: The special education fund proposed budget estimated revenues at \$68.4 million dollars. The estimated revenue was adjusted to \$70 million dollars. The significant adjustments were a net result of increased state funding reimbursement for the Special Education Transportation Consortium expenditures.

Expenditures: The special education fund adopted expenditures were budgeted at \$71.9 million dollars. The final amendment for the special education fund was \$72.3 million dollars. The significant adjustments were a net result of increases in other financing uses, operation & maintenance of plant, transportation and school administration and decreases in instruction, student services, instructional staff, general administration, support services-other, and community services.

Career Technical Education Fund

Revenues: The career technical education fund proposed budget estimated revenues at \$16.2 million dollars. The estimated revenue remained at \$16.2 million. The significant adjustments were a net result of an increase in state sources and a decrease in local sources.

Expenditures: The career technical education fund adopted expenditures were budgeted at \$16.2 million dollars. The final amendment for the career technical education fund was \$16.6 million dollars. The significant adjustments were a result of increases in instructional staff and costs for the GASC transportation consortium..

Actual Results vs. Final Budget

General Fund

Revenues: The general fund actual revenue was \$21.4 million dollars. The final budget was estimated at \$22.2 million dollars. The variance between the actual and final budget was due to the deferral of local, state and federal grants received in the current fiscal year.

Expenditures: The final budgeted expenditures and other financing uses for the general fund was \$21.8 million dollars. The actual expenditures were \$20.1 million dollars. The variance was a result of not fully expending the allocations for the various function areas including grant activity crossing fiscal years.

Special Education Fund

Revenues: The special education fund actual revenue was \$69.6 million dollars. The final budget was estimated at \$69.9 million dollars. The variance between the actual and final budget was the net difference of lower than anticipated local and state sources of revenue combined with higher than anticipated federal revenues.

Expenditures: The final budgeted expenditures and other financing uses for the special education fund were \$72.3 million dollars. The actual expenditures were \$71.5 million dollars. The variance was the net result of not fully expending allocations for instruction, student services, instruction staff, general administration, school administration, business administration, operation and maintenance of plant, transportation, support services and community services while increasing other financing sources and uses.

MANAGEMENT DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2008

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

* Foundation Allowance

The Board of Education and Administration agreed to an estimate of no revenue increase in Section 81 for the 2008-09 fiscal year based on information received from various educational organizations such as Michigan Association of School Business Officials, Michigan Association of School Administrators, and the Michigan Association of School Boards as well as discussions local state representatives. The political debate regarding the funding of public education and the current economic climate in the State of Michigan affect this estimate before the percentage increase is known.

* Retirement Rates

The continuing cost of health insurance to current and potential retirees continues to drive the rate increases the Michigan School Personnel Retirement System recommends to the legislature for approval. The rate is anticipated to decrease to 16.54% from 16.72% in 2007-08.

* The Genesee Intermediate School District 2008/2009 adopted budget is as follows:

| | <u>General</u> | <u>Special</u> | <u>Career Tech</u> | <u>Total</u> |
|--------------------------------|--------------------|----------------------|--------------------|----------------------|
| <u>REVENUE</u> | \$19,455,484 | \$70,212,372 | \$16,087,910 | \$105,755,766 |

GENESEE INTERMEDIATE SCHOOL DISTRICT - FLINT, MICHIGAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

1) DESCRIPTION OF THE DISTRICT AND REPORTING ENTITY

The School District operates under a locally elected five-member Board form of government and provides educational and supportive services as mandated by the State of Michigan and/or federal agencies. This Board of Education controls the School District's instructional and support facilities which provides special education services and support services to the students of the twenty-one local educational agencies and chartered schools within its borders.

REPORTING ENTITY

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading. The primary government of the School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. For Genesee Intermediate School District, this includes general operations, special education services, career technical education services, food service and student and supportive service activities of the School District.

Component units are legally separate organizations for which the School District is financially accountable. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt, or the levying of taxes. The School District has no component units.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Genesee Intermediate School District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with or contradict GASB pronouncements. The most significant of the School District's accounting policies are described below:

A) FUND ACCOUNTING

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary and fiduciary.

Governmental Funds – Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the School District's major governmental funds:

General Fund – The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the laws of the State of Michigan.

Special Education Fund – The special education fund is used to account for financial resources to be used specifically for providing special education services to students within the School District.

Career Technical Education Fund - The career technical education fund is used to account for financial resources to be used specifically for providing vocational education services to students within the School District.

FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

A) FUND ACCOUNTING (Continued)

Capital Projects Fund – The capital projects fund accounts for financial resources to be used for the acquisition, construction, or improvement of capital facilities other than those financed by proprietary funds.

The other governmental funds (non-major funds) of the School District account for other resources whose use is restricted to a particular purpose.

Enterprise Funds – Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's enterprise fund is:

Local District Services Fund – This fund accounts for a myriad of services provided to local school districts on a fee basis. The major fee for service activities are transportation services for special education and the county-wide interactive voice, data and video network (GENNET).

Fiduciary Funds – Fiduciary fund reporting focuses on net assets and changes in net assets. The District's fiduciary funds consist of agency funds which are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. The agency funds are used to account for amount held for student and employee groups.

B) BASIS OF PRESENTATION

Government-wide Financial Statements – The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements – Fund financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. Internal service funds are combined and the totals are presented in a single column on the face of the proprietary fund statements. Fiduciary funds are reported by fund type.

GENESEE INTERMEDIATE SCHOOL DISTRICT - FLINT, MICHIGAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B) BASIS OF PRESENTATION (Continued)

The accounting and reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

C) BASIS OF ACCOUNTING

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues – Exchange and Non-exchange Transactions – Revenues resulting from exchange transactions, in which each party receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recorded in the fiscal year in which the resources are measurable and available. Available, means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of the fiscal year-end.

Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenues from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available in advance, interest, tuition, grants, student fees and rentals.

Deferred Revenue – Deferred revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

Grants and entitlements received before the eligibility requirements are met are recorded as deferred revenue. The long-term portion of the receivable for fees charged to local districts for the GENNET project have also been recorded as deferred revenue.

GENESEE INTERMEDIATE SCHOOL DISTRICT - FLINT, MICHIGAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C) BASIS OF ACCOUNTING (Continued)

Expenses/Expenditures – On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue. Unused donated commodities are reported as deferred revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

D) CASH AND CASH EQUIVALENTS

Cash and cash equivalents include amounts in demand deposits and certificates of deposit.

The District reports its investments in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools* and No. 40 *Deposits and Investment Risk Disclosures*. Under these standards, certain investments are valued at fair value as determined by quoted market prices, or by estimated fair values when quoted market prices are not available. The standards also provide that certain investments are valued at cost (or amortized cost) when they are of a short-term duration, the rate of return is fixed, and the district intends to hold the investment until maturity. Accordingly, investments in banker acceptances and commercial paper are recorded at amortized cost.

State statutes authorize the District to invest in bonds and other direct and certain indirect obligations of the U.S. Treasury, certificates of deposit, savings accounts, deposit accounts, or depository receipts of a bank, savings and loan association, or credit union, which is a member of the Federal Deposit Insurance Corporation, Federal Savings and Loan Insurance Corporation, or National Credit Union Administration, respectively; in commercial paper rated at the time of purchase within the three highest classifications established by no less than two standard rating services and which matures not more than 270 days after the date of purchase. The District is also authorized to invest in U.S. Government or federal agency obligation repurchase agreements, bankers' acceptances of U.S. banks, and mutual funds composed of investments as outlined above.

E) PREPAID ASSETS

Payments made to vendors for services that will benefit periods beyond June 30, 2008, are recorded as prepaid items using the consumption method. A current asset for the prepaid amount is recorded at the time of the purchase and an expenditure/expense is reported in the year in which services are consumed.

F) INVENTORY

On government-wide financial statements are stated at cost and are expensed when used.

On fund financial statements inventories are stated at cost. Inventory in governmental funds consists of expendable supplies held for consumption. The cost of inventory items is recorded as an expenditure in the governmental fund types when purchased.

G) CAPITAL ASSETS

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the proprietary funds are reported both in the business-type activities column of the government-wide statement of net assets and in the respective funds.

GENESEE INTERMEDIATE SCHOOL DISTRICT - FLINT, MICHIGAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G) CAPITAL ASSETS (Continued)

All capital assets are capitalized at cost (or estimated historical cost) using a \$5,000 capitalization threshold. The School District does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an assets life are not. Interest incurred during the construction of capital assets is also capitalized.

All reported capital assets are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| <u>Description</u> | <u>Governmental Activities Estimated Lives</u> |
|----------------------------|--|
| Buildings and Improvements | 20 – 50 years |
| Furniture and Equipment | 5 – 10 years |
| Vehicles and Buses | 5 – 10 years |

H) INTERFUND BALANCES

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as “interfund receivables/payables.” These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for the net residual amounts due between governmental and business-type activities, which are presented as internal balances.

I) COMPENSATED ABSENCES

The School District reports compensated absences in accordance with the provisions of GASB Statement No. 16, “Accounting for Compensated Absences.” Sick leave benefits are accrued as a liability using the termination payment method. An accrual for earned sick leave is made to the extent that it is probable that the benefits will result in termination payments. The liability is based on the School District’s past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental fund financial statements the current portion of unpaid compensated absences is the amount expected to be paid using expendable available resources. These amounts, if any, are recorded in the account “compensated absences payable” in the fund from which the employees who have accumulated unpaid leave are paid. The noncurrent portion of the liability is not reported. In proprietary funds, the entire amount of compensated absences is reported as a fund liability.

J) ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

GENESEE INTERMEDIATE SCHOOL DISTRICT - FLINT, MICHIGAN
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2008

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

J) ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS (Continued)

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments, the noncurrent portion of capital leases, compensated absences, contractually required pension contributions and special termination benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

K) FUND BALANCE RESERVES

The School District reserves those portions of fund equity which are legally segregated for a specific future use or which do not represent available expendable resources and therefore are not available for appropriation or expenditure. Unreserved fund balance indicates that portion of fund equity which is available for appropriation in future periods. Fund equity reserves have been established for inventories.

L) NET ASSETS

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

M) OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, those revenues are primary fees collected for providing transportation of special education students, fees collected for transportation of students in the Flint Community School Districts and fees collected for local district use of the GENNET interactive voice, data and video system.

N) CONTRIBUTIONS OF CAPITAL

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction.

O) INTERFUND ACTIVITY

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

P) EXTRAORDINARY AND SPECIAL ITEMS

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the Board of Education and that are either unusual in nature or infrequent in occurrence. Neither type of transaction occurred during the fiscal year ended June 30, 2008.

2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Q) ESTIMATES

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

R) BUDGETARY DATA

The budgetary process is prescribed by provisions of the State of Michigan Budget Act and entails the preparation of budgetary documents within an established timetable. All funds, other than agency funds, are legally required to be budgeted and appropriated. The legal level of budgetary control has been established by the Board of Education at the function level. Any budgetary modifications may only be made by resolution of the Board of Education.

The School District follows these procedures in establishing the budgets for the individual funds as reflected in the financial statements.

- 1) Prior to June 30, the Superintendent submits to the School Board a proposed operating budget for the fiscal year commencing on July 1.
- 2) A public hearing is conducted during June to obtain taxpayer comments.
- 3) Prior to June 30, the budget is legally enacted through passage of a resolution.
- 4) For purposes of meeting emergency needs of the School District, transfer of appropriations may be made by the authorization of the Superintendent. Such transfers of appropriations must be approved by the Board of Education at its next regularly scheduled meeting.
- 5) The School Superintendent is charged with general supervision of the budget and shall hold the department heads responsible for performance of their responsibilities.
- 6) During the year the budget is monitored, and amendments to the budget resolution are made when deemed necessary.

Lapsing of Appropriations – At the close of each year all unspent appropriations revert to the respective funds from which they were appropriated and become subject to future appropriation.

3) STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY – BUDGET VIOLATIONS

1968 PA 2 provides that a local unit shall not incur expenditures in excess of the amount appropriated.

In the body of the financial statements, the District's actual expenditures and budgeted expenditures for the budgetary funds have been shown on a functional basis. The approved budgets of the District for these budgetary funds were adopted to the activity level.

During the year ended June 30, 2008, the District incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated.

4) DEPOSITS AND INVESTMENTS

As of June 30, 2008, the District had the following investments.

| <u>Investment Type</u> | <u>Fair value</u> | <u>Weighted Average Maturity (Years)</u> | <u>Standard & Poor's Rating</u> | <u>%</u> |
|--|---------------------|--|---|----------|
| MILAF External Investment Pool - MICMS | \$ 6,279,687 | 0.0027 | AAAm | 99.50% |
| MILAF External Investment Pool - MIMAX | 31,845 | 0.0027 | AAAm | 0.50% |
| <u>TOTAL</u> | <u>\$ 6,311,532</u> | | | 100.00% |

1 day maturity equals 0.0027, one year equals 1.00.

Interest rate risk. In accordance with its investment policy, the District will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by; structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; and, investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools and limiting the average maturity in accordance with the District's cash requirements.

Credit risk. State law limits investments in commercial paper and corporate bonds to a prime or better rating issued by nationally recognized statistical rating organizations (NRSROs). As of June 30, 2008, the District's investment in the investment pool was rated AAA by Standards & Poor's and AAA by Moody's Investors Service.

Concentration of credit risk. The District will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the District's investment in a single issuer, by diversifying the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. More than 5% of the District's investments are in pooled investment accounts which represents 100% of the District's total investments.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the District's deposits may not be returned to it. As of June 30, 2008, \$25,956,713 of the District's bank balance of \$26,256,713 was exposed to custodial credit risk because it was uninsured and collateralized with securities held by the pledging financial institution's trust department or agent, but not in the District's name.

Custodial credit risk – investments. For an investment, this is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party.

The District will minimize custodial credit risk, which is the risk of loss due to the failure of the security issuer or backer, by; limiting investments to the types of securities allowed by law; and pre-qualifying the financial institutions, broker/dealers, intermediaries and advisors with which the District will do business.

Foreign currency risk. The District is not authorized to invest in investments which have this type of risk.

| <u>TOTAL</u> | <u>\$ 29,659,891</u> |

5) PROPERTY TAXES

The School District levies its property taxes on December 1 and various municipalities collect its property taxes and remit them to the District through February. The delinquent real property taxes of the District are purchased by the County, and delinquent personal property taxes continue to be collected by the municipalities and recorded as revenue as they are collected. The county sells tax notes, the proceeds of which have been used to pay the District for these delinquent real property taxes. These delinquent real property taxes have been recorded as revenue in the current year.

6) RECEIVABLES

Receivables at June 30, 2008, consist of taxes, accounts (fees), intergovernmental grants and interest. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs, and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables (due from other governmental units) follows:

| | |
|--|--------------------------|
| <u>GOVERNMENTAL ACTIVITIES</u> | <u>AMOUNT</u> |
| State Aid | \$ 4,804,538 |
| Federal Grants | 6,525,345 |

| <u>TOTAL GOVERNMENTAL ACTIVITIES</u> | <u>\$ 11,431,462</u> |

7) UNEMPLOYMENT COMPENSATION

The District is subject to the Michigan Employment Security Act and has elected the reimbursement method of financing. Under this method, the District must reimburse the Employment Commission for all benefits charged against the District for the year. As of June 30, 2008, the School District had \$58,506 of estimated claims payable in conjunction with the program.

8) SHORT-TERM DEBT

The District has various options for short-term financing including tax anticipation notes, state aid anticipation notes and lines of credit. The District entered into no short-term financing arrangements during the fiscal year ended June 30, 2008.

10) SELF INSURANCE POOL

The School District participates in a public entity risk pool (self-insurance pool) for its workers' compensation, property and casualty, general liability, and boiler insurance. The pool is through the MASB/SET/SEG and is administered by Corporate Services. The pool provides for reinsurance by various insurance companies at various levels, depending on the coverage. Should the pool experience significant losses in the aggregate, the School District may be required to pay additional monies to the pool. At present, the MASB/SET/SEG has not required additional funds, but rather has issued refunds based on experience gains over experience losses over the last few years. Premiums for the year ended June 30, 2008 were \$617,013 and the School District received a dividend refund of \$38,027.

11) LONG-TERM LIABILITIES

A) Durant Resolution Package Bonds

Genesee Intermediate School District issued Durant Resolution Bonds on November 24, 1998 in the amount of \$3,150,338 at the interest rate of 4.7613%. The bonds are a legal obligation of the school district but the annual State of Michigan appropriation is the only revenue source for making the annual debt service payments on the bonds. If the legislature fails to appropriate the bonds, the district is under no obligation for payment. The balance at June 30, 2008 was \$1,860,159.

B) Debt service requirements at June 30, 2008, were as follows:

| Year Ended June 30, | Governmental Activities - Durant Bonds | | |

12) OPERATING LEASES

Genesee Intermediate School District has entered into several operating leases summarized below:

- A) The District entered into a lease agreement with NuWest Associates for the use of space in the Ballenger Point Shopping Center. The building is being leased at a cost of \$9,767 a month for Suite A and \$5,574 a month for Suite B plus tenant expenses and janitorial services. The rent for each subsequent year shall be determined by Consumer Price Index. The lease term begins on October 1, 2006 and ends on September 30, 2009. There is an option to renew the lease after the original term has expired.
- B) The District entered into a lease agreement with IKON Office Solutions, Inc. for a color copier. The lease calls for 60 monthly payments of \$1,275 and expires April 16, 2012.

The future minimum payments are as follows:

| | |
|---------------------|--------------------------|
| 2009 | \$ 203,541 |
| 2010 | 209,188 |
| 2011 | 15,304 |

13) INTERFUND BALANCES

Interfund balances at June 30, 2008 consisted of the following:

| DUE TO | DUE FROM | | | |
|-----------------------|---------------------------|-----------------------|---------------------|---------------------------|
| | Special | Capital | Enterprise | |
| | Education | Projects | | |
| | Fund | Fund | Fund | Total |

| TOTAL | <u>\$2,909,337</u> | <u>\$6,270</u> | <u>\$711</u> | <u>\$2,916,318</u> |

These balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting systems, and (3) payments between funds are made.

14) INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2008, consisted of the following:

| TRANSFERS TO | TRANSFERS FROM | | |
|-----------------------|-------------------------|---------------------------|---------------------------|
| | General | Special | |
| | Fund | Education | |

15) DEFINED BENEFIT PENSION PLAN

Plan Description

The School District participates in the Michigan Public School Employees' Retirement System (MPERS), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. The MPERS provides retirement, survivor and disability benefits to plan members and their beneficiaries. The MPERS issues a publicly available financial report that includes financial statements and required supplementary information for the MPERS. That report may be obtained by writing to the MPERS at 7150 Harris Drive, PO Box 30673, Lansing, MI 48909-8103.

Funding Policy

Employer contributions to the MPERS result from the implementing effects of the School Finance Reform Act. Under these procedures, each school district is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefit amounts on a cash disbursement basis. The pension benefit rate totals 17.74 percent for the period July 1, 2007 through September 30, 2007 and 16.72 percent for the period October 1, 2007 through June 30, 2008 of the covered payroll to the plan. Basic plan members make no contributions, but contribute to a member investment plan (MIP) at rates ranging from 3 percent to 4.3 percent of gross wages. The School District's contributions to the MPERS pension plan for the years ended June 30, 2008, 2007 and 2006 were \$5,591,556, \$5,391,060 and \$4,630,473, respectively.

Postemployment Benefits

Under the MPERS Act, all retirees participating in the MPERS pension plan have the option of continuing health, dental and vision coverage. Retirees having these coverages contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent of the monthly premium amount for the health, dental and vision coverages. Required contributions for postemployment health care benefits are included as part of the School District's total contribution to the MPERS pension plan discussed above.

16) RISK MANAGEMENT

The District is exposed to various risks of loss in conducting its operations, from property and casualty, theft, damage to various tort and liability claims and workman's compensation claims. The District limits its exposure to such claims through its participation in and payments of premiums to SET-SEG, Inc. Insurance Trust. The pool maintains a loss fund and is also required by the terms of the participation agreement to obtain insurance and reinsurance as necessary.

The terms of the participation agreement with the pool indicate that, should losses of the pool incurred in a given coverage period exceed the loss fund and the aggregate excess reinsurance, the fund may access its member districts on a pro-rata basis to cover excess losses. In past years the loss fund has exceeded the amount necessary to maintain prudent loss reserves, resulting in annual premium refunds to member districts. The District's management believes that participation in this pool provides sufficient coverage to protect the District from significant adverse financial impact.

17) GOVERNMENTAL REGULATION

Substantially all of the school district's facilities are subject to federal, state and local provisions regulating the discharge of materials into the environment. Compliance with these provisions has not had, nor does the school district expect such compliance to have, any material effect upon the capital expenditures, net revenue in excess of expenditures or financial condition of the school district. Management believes that its current practices and procedures for the control and disposition of such wastes comply with applicable federal and state requirements.

18) CONTINGENCIES AND COMMITMENTS

The District participates in a number of federally assisted grant programs. These programs are subject to program compliance audits. The audits of these programs for and including the year ended June 30, 2008, have been conducted and have been reported in this audit report. However, the compliance audit reports have not yet been accepted by the grantors. The amount, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time; although the District expects such amounts, if any, to be immaterial.

19) SUBSEQUENT EVENTS

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

To the Board of Education of
Genesee Intermediate School District

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Genesee Intermediate School District, as of and for the year ended June 30, 2008, which collectively comprise the Genesee Intermediate School District's basic financial statements and have issued our report thereon dated November 13, 2008. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Genesee Intermediate School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Genesee Intermediate School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Genesee Intermediate School District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the Genesee Intermediate School District's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Genesee Intermediate School District's financial statements that is more than inconsequential will not be prevented or detected by the Genesee Intermediate School District's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Genesee Intermediate School District's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Genesee Intermediate School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133**

To the Board of Education of
Genesee Intermediate School District

Compliance

We have audited the compliance of Genesee Intermediate School District with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2008. Genesee Intermediate School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Genesee Intermediate School District's management. Our responsibility is to express an opinion on Genesee Intermediate School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Genesee Intermediate School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on Genesee Intermediate School District's compliance with those requirements.

In our opinion, Genesee Intermediate School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2008. However, the results of our auditing procedures disclosed instances of noncompliance with those requirements that are required to be reported in accordance with OMB Circular A-133 and which are described in the accompanying schedule of findings and questioned costs as item 2008-1.

Internal Control Over Compliance

The management of Genesee Intermediate School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered Genesee Intermediate School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Genesee Intermediate School District's internal control over compliance.

November 13, 2008

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses as defined below. However, as discussed below, we identified certain deficiencies in internal control over compliance that we consider to be significant deficiencies.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as item 2008-1.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Genesee Intermediate School District's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. We did not audit Genesee Intermediate School District's response and, accordingly, we express no opinion on it.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Genesee Intermediate School District, as of and for the year ended June 30, 2008, and have issued our report thereon dated November 13, 2008. Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Genesee Intermediate School District's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of the finance committee, management, Board of Education, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2008

SECTION III – FEDERAL AWARD FINDINGS AND QUESTIONED COSTS

2008-1) Medical Assistance Program (CFDA 93.778)

Finding Type – Significant deficiency and non-compliance

Condition – Reimbursement reports for the Medical Assistance Program are not being accurately completed by local school district personnel.

Criteria – Staff salaries and benefits were not calculated correctly in accordance with the contract and in some cases overclaimed or underclaimed. The percentage of professional staff time was not properly applied to the grant.

Effect of Condition – Salaries, benefits or other expenses charged to the program could be disallowed and reimbursements modified.

Cause of Condition – The cause of the condition was the lack of knowledge by the local district and lack of oversight by the Intermediate School District.

Recommendation – The special education internal monitor should sample different Medicaid Administrative Claims per quarter filed by the local districts and trace back all claimed amounts back to supporting documentation.

Views of Responsible Officials and Planned Corrective Action – Management will develop a monitoring process with increased oversight of all local districts Medicaid claims. Revised claim requests will be processed and submitted for the corrections identified.

Questioned Costs - \$22,034 of Medicaid costs claimed were overstated on the Medicaid reimbursement reports which represents less than 3/10 of a percent of the \$8.4 million claims tested. However, there is no method to determine how much the claim reimbursement would be affected.

STATUS OF PRIOR YEAR FINDINGS AND QUESTIONED COSTS

There were no prior year findings or questioned costs.
